Harrisonburg Paving Schedule beginning week of November 3

Harrisonburg, VA – The Public Works Department continues working through the annual paving schedule with the selected contractor, Adams Construction Company. Crews will mill and repave the streets. The milling operation consists of removing approximately 1 ½-2 inches of old pavement and replacing it with new asphalt several days later. Streets will be milled and paved in the following order beginning the week of November 3, 2014:

- Municipal Lot (ditch lines on the south side of Turner Pavilion)
- Chicago Ave. (Gay – Rockingham)
- N. Liberty St. (railroad crossing @ Harrisonburg Electric Commission – north City limits)
- Maryland Ave. (railroad crossing approach, S. Main St. end)
- Ramblewood Rd. (Harrisonburg Electric Commission sub-station – Greendale)
- Smithland Rd. (Harrisonburg Electric Commission sub-station – Old Furnace)

All work will be done during the daytime hours beginning at 7:00 a.m.

Motorists will still be able to travel on the roadways with limited access while the paving is being complete. There will be interruptions to the regular flow of traffic in these areas. The areas will be well-marked with signs to alert motorists.

This schedule is subject to change due to weather conditions and unforeseen maintenance on equipment.

The Street Division of the Public Works Department maintains over 300 lane miles of roadway and hundreds of acres of city right-of-way, for which its responsibilities include the maintenance of street surfaces, storm drains, and sidewalks, grass mowing, street sweeping, leaf collection, and snow/ice removal. More information about the Street Division is available online at <http://www.harrisonburgva.gov/streets-and-traffic>
